

TAPSAM GO CONVERSION

What others call luxury - for us, that's just the beginning.

What is the Tapsam GO version?

It's our answer to customers who want a **solid van conversion** at a more accessible price.

Simple, functional, and **ready for action** – without unnecessary extras, but with the full Tapsam Designs **quality**.

Designed with efficiency in mind – both in terms of space and **budget**.

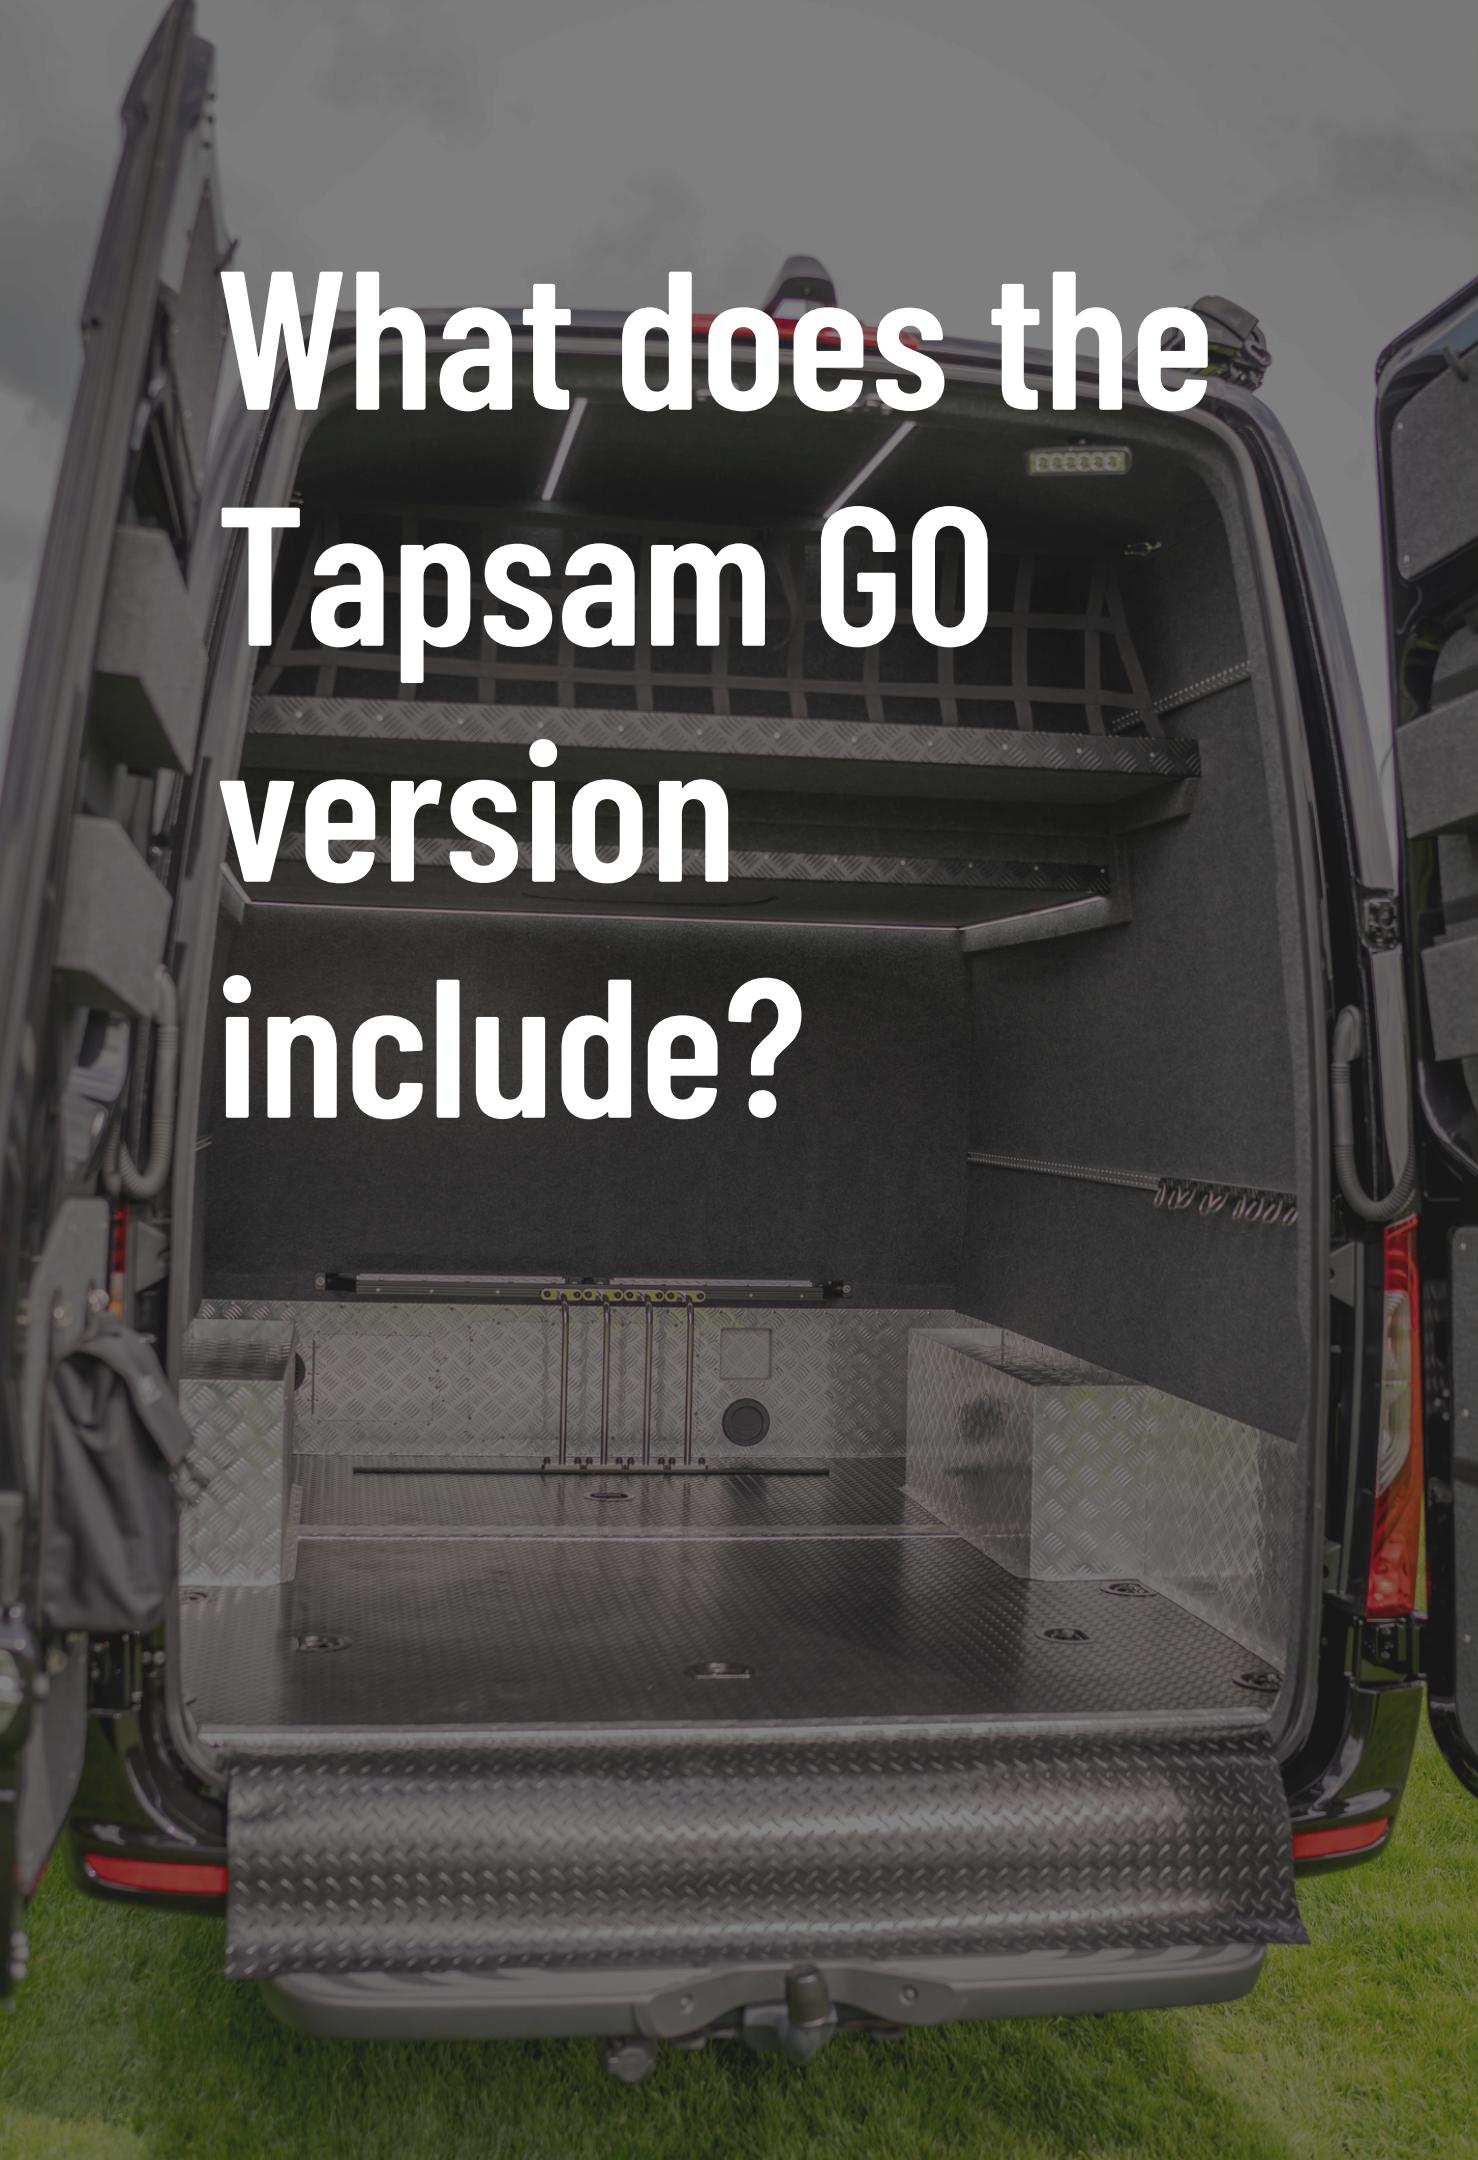

Perfect for getting started, or for those who want something **practical** and to the point.

Who is it for?

- For those who want to **start their van life** or motorsport journey.
- For customers looking for a smart **balance** between **price and quality**.
- For companies in need of a reliable and **high-standard** fleet.
- **For racers** and **teams** who count every kilogram and every penny.
- For people who need a van that's **ready to hit the road**.

What does the Tapsam GO version include?

- Durable build using **lightweight** and resistant materials.
- Smart layout with a **large storage** space.
- **Simple**, aesthetic kitchen with essential equipment.
- LED lighting, **full Victron Energy electrical** installation.
- Sleeping space for **4-5 people**.
- Possibility of **further upgrades**.

BUDGET

A price that crushes the market – for a quality others offer only in their top-tier versions.

QUALITY

Build quality combines precision, experience, and premium materials – same as in our most expensive conversions.

EXPERIENCED COMPANY

Built by a proven manufacturer.
Designed and crafted by a company with 30 years of experience in creating reliable builds for motorsport and travel.

Why choose Tapsam GO?

"The most rational and compact van build on the market – ready to go."

Benefits of owning Tapsam GO

- **FULL FUNCTIONALITY**

Despite the lower price, Tapsam GO offers everything you need for comfortable travel and life on the road.
- **PREMIUM QUALITY WITH BIG SAVINGS**

Tapsam GO uses the exact same proven materials and build standards as our top-tier conversions.
- **FAST DELIVERY TIME**

Tapsam GO builds are made on a separate production line – ensuring quick availability and short lead times.
- **EASY TRAVEL – FULL MOBILITY**

Tapsam GO builds are available for vehicles such as: Mercedes-Benz Sprinter, Volkswagen Crafter, MAN TGE – which means you can move freely without access restrictions.

How much does it cost?

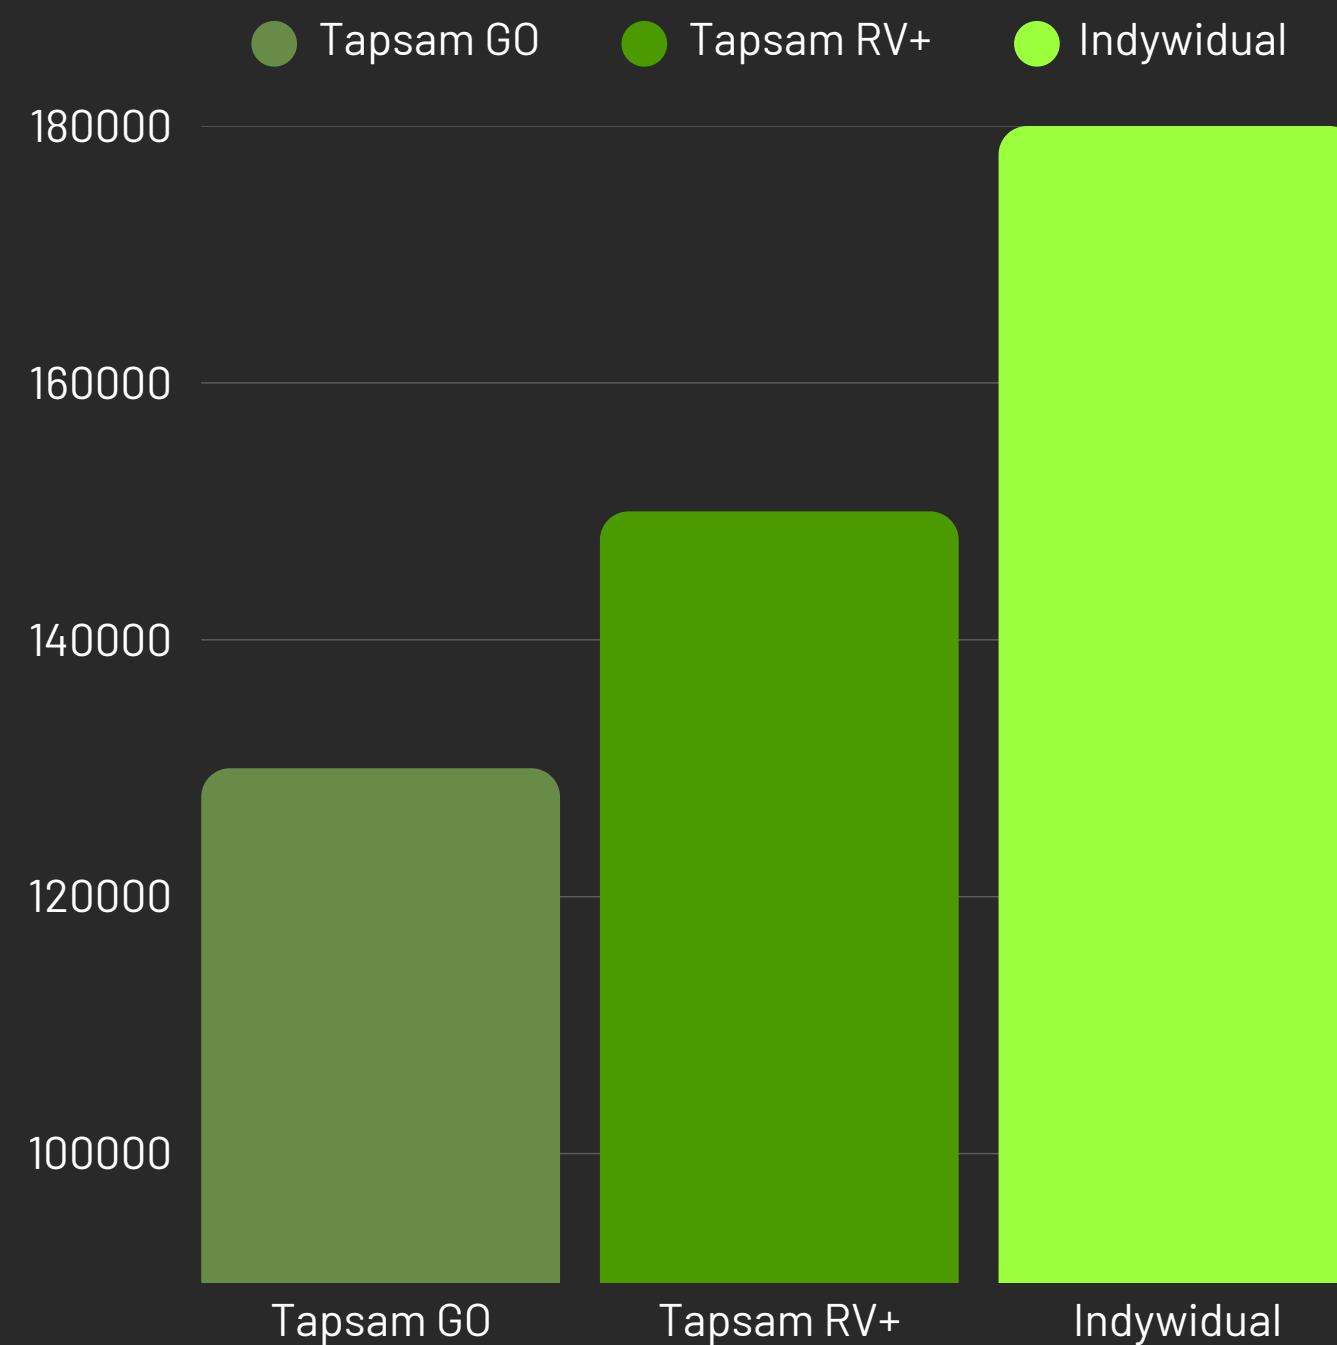

Tapsam GO is the **most cost-effective option** on the market.

Designed as a **budget** offering – but without any quality compromises.

Same build precision, same attention to detail – as in our most expensive builds.

The difference? Fewer extras. More common sense.

**By choosing Tapsam GO,
you save over 60,000 PLN**

A woman with blonde hair, wearing a black long-sleeved shirt and blue jeans, is standing in the open doorway of a van. She is looking down at a dark grey or black sleeping bag or mat on the floor. The van's interior is visible, including a seat with a headrest and a window showing a landscape outside. The overall atmosphere is cozy and suggests a travel or outdoor lifestyle.

Tapsam GO
is where your
journey starts.
